## *The Suit lamp*

Traditional tailoring and its handcrafted making inspired Oriol Llahona to create the Suit lamp collection produced by Alma Light .

Its stylized shape and front opening reminds us jacket lapels, in which light fits perfect, and creates a top/bottom direct lighting and a pleasant indirect lighting through its translucent material screen.

The Suit lamp is made of a new material specifically developed for Alma Light and it includes floor and table lamp and available in 3 colors: white, ivory and gray fumé.

The Suit lamp is handcrafted as an old-style tailored suit and every piece could be considered as unique. It fits perfect in every atmosphere. Other colors under request.
